

## Illegal Immigration, 'Free Trade' and the 'Free Flow of People' - [CircumspectNews.com](http://CircumspectNews.com)

Members of Congress who talk about securing the U.S.-Mexico border, but all the while [support "free trade,"](#) are being totally dishonest. That's because the **"free flow of goods, services and people [labor]"** across national borders within regional blocs is the very definition of their "free trade." This "free trade" is not "free enterprise," but "managed" trade, run by unelected, unaccountable big gov/big business, (i.e., "fascist") consortiums. It is the goal of all major "free trade" blocs of nations on earth, building upon created regulatory institutions such as [NAFTA tribunals](#), to become vast regional **political** jurisdictions like the European Union, with its "free flow of people" within a continental ["Schengen Zone"](#) perimeter. Examples:

#### NORTH AMERICA:

**Canada And The United States, A Singular Partnership** – Metropolitan Corporate Counsel, August 20, 2012 – The Editor interviews John F. Prato, Consul General of Canada in New York. Prato: The goal of the Action Plan is to make the perimeter of North America more secure than ever and relieve pressures at the border itself so we can **free up the flows of legitimate people, goods and services**....For example, goods arriving in Canada or the United States from outside the North American perimeter will be screened once at their first point of arrival. **Review of U.S. Rulings by Nafta Tribunals Stirs Worries** – New York Times, April 18, 2004 – [T]he tribunal declared a Mississippi court's judgment at odds with international law, leaving the United States government potentially liable for hundreds of millions of dollars.... “This is the biggest threat to United States judicial independence that no one has heard of and even fewer people understand,” said John D. Echeverria, a law professor at Georgetown University.... The availability of **this additional layer of review, above even the United States supreme Court**, is a significant development, legal scholars said....The tribunals have the potential to upset the settled American constitutional order.

The “free flow” of people illegally crossing the U.S.-Mexico border isn't being allowed by derelict U.S. officials simply to enlarge a dependent class to empower Obama's "blue state" socialist America. These derelicts' main objective is to amalgamate the continent into a two-class economy to establish a socialist **North America** – a North American Union.

Republicans' excuse for “immigration reform” amnesty is a lie. Vladimir Putin is not pushing open borders in the Eurasian Union “for Hispanic votes.” Neither are the monarchies of the Arabian Peninsula or the governments of South America, Southeast Asia or Canada. All of this is corroborating evidence that the “free flow” of people illegally crossing the U.S.-Mexico border is intended primarily to aid in building a North American Union, within a global network of “free trade” blocs. These regional blocs are designed – through created institutions such as NAFTA tribunals – to morph into regional political jurisdictions patterned after the European Union.
